

If you are reading this, you have taken the first step in understanding and mitigating cyber risk for your State, local, tribal, or territorial (SLTT) government. **This toolkit contains a number of resources specially designed to help you recognize and address your organization's cybersecurity risks.**

Toolkit Contents

- **Begin the Conversation: Understanding the Threat Landscape**

Aware that cybersecurity is an issue, but not sure where your organization stands? This guide explains various cybersecurity concepts to help you start evaluating your program.

- **SLTT Government Leadership Agenda**

This guide helps SLTT government leaders start a conversation with their management teams about addressing their organization's cybersecurity needs.

- **Hands-On Resource Guide**

This guide explains a number of free tools and resources from the Department of Homeland Security and its partners that directly connect you with personnel who offer immediate and sustained cybersecurity assistance to organizations, including SLTT governments.

- **C³ Voluntary Program FAQs**

This document contains general information about the Critical Infrastructure Cyber Community (C³, pronounced "C-Cubed") Voluntary Program. The C³ Voluntary Program provides a central repository of tools and resources for the critical infrastructure cyber community to increase awareness and use of the National Institute of Standards and Technology (NIST) Cybersecurity Framework, and to encourage organizations to manage cybersecurity as part of an all hazards approach to risk management.

To learn more about the C³ Voluntary Program and upcoming events, please visit <https://www.us-cert.gov/ccubedvp>.
